Workshop

on

**“Entrepreneurship as a career opportunity in the field of
Opto-electronic semiconductor technology”**

25th November, 2022

GOVERNMENT ENGINEERING COLLEGE, VALSAD

Coordinators

Dr. R. C. Malan

Prof. R. V. Prajapati

Details of the workshop

- **About the Program:**

Career opportunities in the field of engineering have find its novel address. The engineering aspirant must be aware regarding all possible choice of career selection. The technical skill of the engineering students can be implemented in optimum way by the proper guidance. GEC Valsad has remain pioneer institute to provide the exposure to their students regarding all cutting edge development in the field of engineering and technology. Many students guided in through various sensitization events selected their career as an entrepreneur. It helps the policies and schemes launched by central and state government for their successful implementation at institute level.

One of such workshop entitled: Entrepreneurship as a career opportunity in the field of Opto-electronic semiconductor technology has been organized by Applied Science and Humanities Department under the banner of RUSA-SSIP-IIC at the Institute. The workshop was organized on 24th of Nov, 2022.

The workshop was conducted by industry expert Mr. Sanjay Godavani, Director, LR Electro, Rajkot. LR electro is the leading manufacturing brand of various types of LED lights. They are the exporting the products in various countries. The LEDs for fishing boats are their field of interest.

Mr. Sanjay Godavani has an experience of more than 15 years in the field. He explained all the technical details carried out during the process of manufacturing LEDs. Further, He also covered the opportunities to become entrepreneur in the field of optoelectronics semiconductor industries.

All the threats and their possible solutions faced by an entrepreneur in the said field was narrated by him in very interactive way. The workshop found very motivating and informative for the students of the institute.

At the end of the session Prof. Malan and Prof. Rahul have expressed their gratitude to the session expert, Mr. Sanjay davani, RUSA coordinator - Prof. D. N. Patel and Head of the institute Shree Dr. V. S. Purani (Principal GEC Valsad).

Outcomes

After attending the workshop, students were able to

- find the career opportunity in the opto-electronics semiconductor technology
- understand pre-request for enring in the filed as a startup/entrepreneure.
- gain the technical knowledge for various stages of manufacture process of LED lights.
- Understand the current scenario of the market in the said field.

Glimpses of Online Expert Talk
