on
Industrial visit
at
Common Effluent Treatment Plant, Vapi

11 April 2019

Details of Industrial Visit

Name of industry: Common Effluent Treatment Plant, Vapi

Date of Visit: 13-04-2019

Name of department: Environmental Engineering

department **Number of Participants:** 42 students (Sem 8)

+ 1Faculties

Objectives of industrial visit:

- To demonstrate various working of Common Effluent Treatment Plant.

Event description:

The Department of Environmental Engineering organized an industrial visit to Common Effluent Treatment Plant, Vapi on 13th April, 2019. The visit was organized for eight semester students of Environmental engineering department. The visit comprised 42 students and were accompanied a faculty members Prof. Khyati . K. Modi

The students and faculty member were welcomed by Plant supervisor, and were briefed about the safety measures to be followed during the industrial visit. Further, he gave a detailed explanation to the students about the design of CETP, nature of wastewater and member of CETP and their process, the entire process from the collection to final disposal. Students also visited the effluent treatment plant and observed the processes being carried out in different stages. The visit proved to be fruitful for the student and satisfied its objective of demonstrating various unit operation and unit processes and understanding the working of effluent treatment plant.

Glimpses of Industrial visit
